FRENCH HORSE- BUYERS WILL VISIT EDMONTON AUG 24TH

Arrangements have been made by W. J. Stark, Secretary of the Alberta Provincial Horse Breeders' Association, to have the buyers of horses for the French army in Edmonton at the Exhibition grounds on Thursday, August 24th.

Classes required:—Two classes are wanted. Class A, for light artillery, weighing between 1,000 and 2,000 lbs., for which \$130 will be paid. Class AA, heavy artillery, weighing between 1,200 and 1,300 lbs., for which \$140 dollars will be paid. All horses must be 15 hands (five feet) high, sound in wind and limb, and between five and nine years of age.

The man who contemplates offering horses to the French army buyers should first decide six things:

Is the price satisfactory? Is the animal over 5 years and under 9 years of age? Is it between 15 and 16 hands high? Does it weigh between 1100 and 1300 lbs? Is it sound in wind and limb? Is it accustomed to harness?

It is a waste of time for the seller to permit the inspector to examine the animal and pronounce him acceptable and then begin to haggle about prices. The price this year is a fair price, namely, \$130 for horses weighing between 1100 and 1200 lbs, and \$140 for those weighing between 1200 and 1300 lbs.

Contrary to the general idea, it has been proven that a well preserved horse, even though he be a little past the nine year mark, will endure greater hardships than one under five years, no matter in, how good condition he may be.

For that reason inspectors may relax a little on the older age limit, provided the horse is sound in wind, supple in his joints and well preserved in body, but there is no such thing as relaxing the rules as to the younger. An animal must have all of his permanent teeth or he will not be accepted.

The worst that army horses are required to do is to be extremely trying to the feet and wind, consequently there must be no flaws in these points, but splints that are not accompanied by lameness, and wire marks that do not stiffen the joints, are frequently overlooked.

The need for artillery horses must be "harness wise" before they will be accepted. They need not be "farm broke," but they must not resist being harnessed and hitched up, and they must start without plunging or balking.

Union Bible Class conducted by Rev. T. Murphy in St. Thomas Church on Wednesday evening at 7.45.

Pto F. Cope was home from Sarcee on Sunday and is a guest at the Crampton home.

CORRECTION TO PRIZE LIST OF WAINWRIGHT FAIR

The following corrections have to be made in the prize lists of the Fair, and should be clipped out by intending exhibitors:—Roadsters.—Class 100, 153b should be "Best Pony Driver," and 153c should be "Best Pony Rider (saddle)." G. Smith, Special.—1st prize should read "\$7.00." Herb Crampton Special.—Should read, 33, and, 2nd, 32.

SUM OF \$250.00 GRANTED AGRICULTURAL SOCIETY TO ENSURE SUCCESS OF FAIR

FRENCH GOVT. ACCEPTS 1000 CASES MATERIALS

Capt. Bryan the Assistant Canadian Red Cross Commissioner reports that the activity of the society in France is steadily increasing. Periodically he makes the round of the Casualty Clearing stations and Field Hospitals and ascertains where supplies are needed. Supplies are sent to Units at the front direct from the Boulogne warehouse by means of a lorry service. In this way the Canadian Red Cross has direct and immediate contact with the wounded at the front.

Supplies are also being issued from a large Canadian Depot at Paris, and thousands of cases of Canadian materials have been accepted by the French Government for distribution to French Hospitals. In connection with this Red Cross reciprocity between France and Canada, it is interesting to note a recent visit by M. Poincare the President of the Republic to No. 4 Canadian Stationary Hospital at St. Cloud.

G.T.P. FEATURING SEE OWN COUNTRY FIRST EXCURSIONS

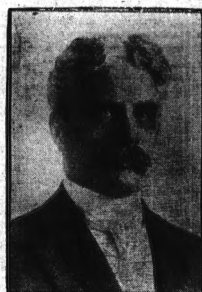

A large number of people from the United States and Eastern Canada, in addition to numbers from Winnipeg and other points in Western Canada who have heretofore spent their vacation in the Old Country, or have taken trips of a similar nature and at corresponding expense, have this year, owing to prevailing conditions, decided to enlarge their knowledge of our own country and at the same time avail themselves of the splendid accommodation offered at a minimum expense by the Grand Trunk Pacific Railway and Steamship Company, who are featuring their trips to Alaska and other North Pacific Coast points.

When taken into consideration that the fares advertised by this Company for the trips in question include meals and berth on board their palatial steamships, it can be readily recognized why this route is becoming so popular. All who have taken advantage thereof are loud in their praise of the character service provided and the unexcelled scenery, both through the mountain division and as observed from the decks of the boats, together with the elimination of a rough ocean voyage, on account of the route the steamers of the Grand Trunk Pacific Coast Steamship Co. Ltd. being through the inside channel, thereby affording island scenery on the one side and main line scenery on the other, replete with mountains and virgin forest landscapes, combined with the attractiveness of primitive Indian villages.

Miss B. Aldridge is spending a week's vacation with friends in Edmonton.

Holy Communion will be administered at Heath on Sunday afternoon at 3 o'clock by Rev. H. Assiter.

In honor of the Grand Trunk boys, who are leaving town, a dance is being arranged to take place some evening this week. Watch for posters.

SIR R. BORDEN

SIR R. BORDEN PLANS VISIT TO WESTERN CANADA

Ottawa, Ont. 20.—Sir Robt. Borden has definitely abandoned his trip to England this year. Sir George Foster has been able to take up with the British authorities all questions affecting Canadian interests, so that it will not be necessary for the Premier to visit the Old Country.

With his trip to Great Britain off, Sir Robert plans to visit Western Canada. No definite arrangements for the tour have yet been made, but it is likely the Premier will leave Ottawa for the prairies about the last week in September.

Outside of a flying trip to Winnipeg a year ago last Christmas, this is the first trip the Premier has been able to arrange west of the Great Lakes since the 1911 election.

There are so many pressing problems continually arising at the capital as a result of the war that the Premier's trip will have to be a flying one. He will, however, address one or two big patriotic meetings in each of the four Western Provinces.

Sir Robert will have to be back in Ottawa by the middle of October to say farewell to H. R. H. the Duke of Connaught and to welcome to Canada the new Governor-General, the Duke of Devonshire.

OPPORTUNITY GOOD TO JOIN THE ARTILLERY

Many of the boys of this district have been wishing for a chance to help operate the big guns and howitzers that have been steadily pounding the Germans for the past few months. It requires men of ability to master the various duties of a gunner, and every artilleryman must become a good horseman. A variety of interesting work including the operations of the guns; taking ranges, setting fuses, observing the fire, signalling and riding the horses, is offered to the men enlisting in this branch of the service. The 78th Depot Battery has been authorized to supply drafts of men to Alberta Batteries now at the front. This is a chance to get behind the Big Guns. The recruiting office is now open at 1000 Jasper Ave. Edmonton, McGill & Driscoll Store in charge of Lieut. R. C. Martin. Anyone wishing to join the artillery should communicate with the recruiting office immediately. Free transportation to the training camp at Lethbridge will be furnished.

The following are the minutes of the regular meeting of the Town Council held on the 14th inst.

Minutes of the previous regular meeting were read and adopted.

Communication from the Medical Health Officer was read in the removing and changing to a sanitary condition the premises occupied by Mr. B. N. Fraser.

Communication from Medicine Hat Vite Company, concerning quotations on sewer tiles, was placed in the hands of the Chairman of Public Works.

Mr. R. A. Snyder on behalf of the Wainwright Agricultural Society, addressed the Council at some length, setting forth a petition that to ensure the success of the coming Exhibition, that a Grant should be made.

The Publicity Committee of Board of Trade, also made representations to the Board of the Council, that a certain sum should be set aside for the purpose of advertising; setting forth the necessity of keeping the advantages of the town and surrounding District, well before intruding settlers.

Moved by Councillor Milne seconded by Councillor Washburn that the Secy be instructed to notify Mr. Fraser to have closet, condemned by the Health Officer, replaced by a sanitary one.—Carried.

Moved by Coun. Washburn seconded by Coun. Milne, that the sum of two hundred and fifty dollars be granted the Wainwright Agricultural Society for the year 1916.—Carried.

The Finance Committee reported having examined the report and financial statement, as set forth by the Auditor, H. O. Patriquin, of the town of Wainwright for the first half of the year 1916, and recommended that the same be accepted.

Moved by Councillor Gerow seconded by Coun. Cook that the report of the finance committee be received and accepted.—Carried.

Moved by Coun. Cook seconded by Coun. Gerow, that the Sec. Treas. be authorized to procure Cash Book from the Western Municipal News as per their quotation of August 10th 1916.—Carried.

Moved by Councillor Gerow seconded by Coun. Greer that the secretary be authorized to have work started on west end of Third Avenue.—Carried.

Moved by Coun. Gerow seconded by Coun. Greer that the Corporation refund to the Park and Wainwright Hotels, the sum of Ten dollars per month each, such refund being to compensate for the use of lavatories by the public. Same taking effect from July 1st 1916. This is referring to scavenging. Agreement only.—Carried.

After considerable discussion or the most practical manner of Town Drainage.

It was moved by Coun. Greer and Washburn, that we do now adjourn.—Carried.

LAST RESULTS OF LOCAL SCHOOL EXAMINATIONS

The following were the successful pupils in Grade IX:—Martha Dahlgren, Ruth Douglas, Las Marion Limpert, Robert Kennedy.

PUBLIC MOVEMENTS SUFFER

The way to kill any movement, is to state your sympathy with it; give a half promise to support it then neglect to do so; discourage those who would work; abuse the leaders (who, of course are always rogues), then when too late to be of any service, pour forth wisdom from your own unlimited supply.

LETTERS TO THE EDITOR ANENT THE FAIR

Mr Editor.—Will you please allow me to ask the Agricultural Society a few questions regarding the coming fair.

Rule 13 says "No exhibit shall be removed from the fair till the close of the exhibition." Please tell us the hour—does it depend on the weather? The ladies take an interest in the races as well as the gentlemen; they also want to be in the hall when the time comes to pick up. There should be a definite hour set for removing articles and so give all an equal chance.

By rule 18 it appears that judging in the hall starts at 10 a.m. on the 11th of Sept., does that mean that no articles will be received after that hour and date? This 10 a.m. on a Monday morning may be alright for the town people and those who have only a few miles to go to the fair, but what about the farmer who has from ten to twenty miles to travel—he would have to prepare on Saturday. This would be almost impossible to do in the busy time, and there are numbers from a great distance who exhibit at our fair.

How are the articles in classes 800 and 900 to be protected? The same as last year? surely some pleasant way can be arranged than was done last year, when the ladies had to be deputed to watch the exhibits and the public considered them somewhat of a nuisance.

An Enquirer.

Divine Service with Holy Communion in St. Thomas Church on Sunday evening at 7.30. Children's Services at 11 a.m. Preacher, Rev. H. Assiter.

BETTER UTILISATION DAIRY BY-PRODUCTS FEEDING TO PIGS

About 1880, a sudden change in Danish agricultural production took place; milk and butter production became the most important factor in the agriculture of the country. Farmers were then faced with the problem of a better utilization of dairy byproducts such as skim milk and when, only a small part of which could be used in cheese-making.

After many inquiries it was found that the most remunerative method of use was to give them as food to pigs. Consequently the development of pig-breeding is closely bound up with the dairy industry; that is why the latter having undergone great expansion, pig-breeding also made rapid strides. Since 1881 the number of pigs has increased almost fivefold; and not only has the quantity grown, but an improvement has been secured from the standpoint of the quality of the animals and their fattening.

G. T. P. Will Use Their New Offices After Saturday Next

A change is being made in the arrangements of the G.T.P. offices having charge over the system between Edmonton and Watrous, and this change will necessitate the removal from Wainwright of the offices of the chief despatcher as well as that of the "B. and B." department. Both of these will on Saturday next be transferred to the new offices at Edmonton, while the despatchers office heretofore in use at To field is being transferred to Biggar.

The Edmonton staff will then operate the Edmonton-Biggar and To field-Calgary section while the office at Biggar will

GERMAN EXPORTS TO CANADA GONE FOREVER

Vice-President Wardleworth of the Canadian Trade Commission says: "The adoption of free trade by Canada is quite out of the question." That is a very natural view-point coming from one who lives by the tariff; but the argument which Mr. Wardleworth advances for its retention is not very strong. He says: "When Canada gave preference to the Mother Country, Germany replied by putting a heavy surtax on Canadian exports, to Germany whereupon Canada put a stunning surtax on German goods. The result was that in one year German exports to Canada shrunk sixty per cent." But if Canada desired to penalise Germany or any other country, would it not be easy to do so simply by imposing a tax against that country alone?

NOWHERE IN FAVOR OF THE RETURN OF LICENSED BARS

All other issues in the British Columbia political campaign seem to be taking a second place to the question as to whether liquor selling shall cease in the Province or continue. It is being fought as bitterly there as it has been fought elsewhere in the Dominion. The liquor interests are making a hard fight to maintain their privilege, but their opponents are well organized and earnest, and will probably win out. The measure proposed will give prohibition so far as it can be given by an act of the Provincial Legislature.

British Columbia has only to look at Manitoba and Saskatchewan and Alberta in making up its mind as to how it shall vote on the question. The Mounted Police and the City police both have the same story to tell; their work has been enormously simplified since the bars have gone. The Provinces which have banished liquor wholly or in part, have benefited financially, morally, and in every other way by the change. It has taken the world time to awaken to the evils of liquor drinking, and how simply they can be avoided; but it is thoroughly awake at last. Outside of the liquor interests, it would be hard to get a corporal's guard to say a word in favor of the reintroduction of the bars.

Mrs. H. G. Williams and her sister left for the city on Saturday last.

have control of the main and branch lines in Saskatchewan. Chief despatcher Simmons of To field will go to the new Biggar office, and from Wainwright the following will go to the scene of their new labors in the city—Chief despatcher Brown, and J. Armstrong, J. Groat, A. Brown and Miss Kingston of the despatchers office, and Messrs H. Johnson, W. McAllister, L. Wilcox, B. McLeod, J. Primrose, E. Carbert, H. Banks, C. Tredger, and Miss McLaren of other departments.

The company is now getting the system down to a permanent basis of operation and this is the cause of the general shake-up.

GRAIN CAN NOW BE CLEANED WHILE THRESHING

In a bulletin entitled "Grain Screenings," issued by the Dominion Department of Agriculture, it is estimated that the loss entailed in shipping Western grain uncleaned, amounts to considerably more than half a million dollars. The following accounts of an experiment by a Western grower should be of value in connection with the problem of eliminating the waste due to the shipment of grain subject to clogging on account of screenings.

A monitor cleaner and a five horse-power engine to run it were purchased and both mounted on an extra strong wagon gear. A 15-foot ordinary grain elevator was attached to the elevator spout to deliver the grain into a wagon or bin. Another wagon received the screenings mostly broken or shrunken grain. The cost of the entire outfit, including operations, repairs and interest on capital, was \$1,195. The grower calculates that he saved on his 80,000 bushel crop 1,600 bushels of broken and shrunken wheat worth \$960, freight on which to the terminal elevator would have cost \$220, and haulage to the local elevator \$64. He thus has a profit of \$49. The outfit paid for itself in one year, and he says is as good as when it started.

This experiment, it is argued, proved that cleaning grain on a large farm is practicable where one has his own outfit. On a medium sized farm where the threshing is hired out, it could not be done in the case of grain hauled directly to market. When the grain is stored on the farm before hauling, cleaning is practicable and advisable. The really practicable way for the whole country generally would be that the threshing outfit should include a grain cleaning attachment, as many of them now do a sheaf loading machine. Any ordinary threshing machine if fitted with proper screens and carefully operated is capable of removing many of the smaller weed seeds that now constitute a considerable percentage of elevator screenings.

DEPARTMENT OF AGRICULTURE MEETING FARM LABOR SHORTAGE

THE Department of Agriculture for the Province has completed its organization to meet the problem of harvest help. At a meeting in Winnipeg at the end of July, a representative of the Alberta Department of Agriculture and likewise of the provinces of Saskatchewan and Manitoba met the passenger agents of the three transcontinental railways and made arrangements for the distribution of harvest hands at reduced rates in all three provinces.

The railway companies will offer special rates for harvesters' excursions from the east from Aug. 15 to 22 and for threshers from Aug. 29 to Sept. 5th. Concession for the transportation of laborers within the province have likewise been secured. The rate both for the transportation of laborers from Winnipeg to points within Alberta and for laborers going from one point to another within the province is one cent per mile, with a minimum of one dollar and fifty cents. It is estimated that 10,000 laborers are required in Alberta. The sources of supply are Eastern Canada, Sarcee Camp, the United States by way of Winnipeg, Coult and Kingsgate, and the Province of British Columbia.

The Department of Agriculture has carefully organized its intelligence and distribution service under the direction of Chas. S. Hotchkiss, Chief Publicity Agent for the Department. Laborers are distributed from three points in the province—Edmonton, Calgary and Lethbridge. Certificates which will entitle the holder to purchase tickets at reduced rates are issued by agents of the Department at these points. The parties in charge are Chas. S. Hotchkiss at Edmonton, J. A. Weir at Lethbridge, W. Grant at Dairy Commissioner's office, Calgary and L. Hartman at Sarcee Camp. Another agent is situated at Prince George and tickets are available from railway agents at the boundary on presentation of certificates from Canadian Government agents which will be good for reduced rates, and from Mr. Ireland of the Department of Labor in Vancouver for rates from Victoria, Vancouver and New Westminster.

The agencies of the department are established not only for securing the distribution of harvesters but for supplying on request the needs of farmers. Already a considerable movement has taken place among the soldiers, of homesteaders to points east and south of Edmonton, and of others from Calgary and Lethbridge.

Chas. S. Hotchkiss, Chief Publicity Agent, Department of Agriculture, will answer all enquiries and requests.

FUND TO HELP JACK TAR

A BRANCH of the British Sailors' Relief Fund is to be established in this province, its purpose being to help in the raising of a fund of a half a million dollars to look after disabled sailors and the dependents of the sailors who lose their lives in or through this war. Anyone who considers for a moment what the navy has done and is still doing in this war—as well as what it has been doing all these years to guard the safety and integrity of the Empire, including our own portion of it, should contribute from a sense of shame, if from no nobler motive. For reasons which need not be mentioned for they are controversial, Canada has borne only a trifling part in the war at sea. She has had her fighting done for her by the other Dominions, or by the sailors of the British navy, whom she is now called upon to remember. The pay of the British sailor is a mere pittance; and when his life is snuffed out, as it may be any day, he leaves the "old girl and the young 'uns" to the mercy of those he gives his life for. That means "those that live at home at ease" as the sailor's poet puts it. The British Sailors' Relief Fund Committee is the agency appointed to look after us, and make us pay up and look pleasant, and it is to be hoped that it will meet with a large measure of success. It is expected that this new organization will be hailed by some as another means for drawing out money for war purposes, but anyone who is called upon to bear no more exacting a part in this war than contributing for the relief of those who do the fighting should have very little complaint; and the man who cannot scrape up something for big-hearted, good natured, brave-souled Jack Tar, must be very very poor—either in pocket or soul.

GERMANY USING CANADIAN NICKEL

IT WAS readily asserted when the German merchant submarine the Deutschland, entered Baltimore that she would take on her return journey a cargo of nickel. Hence the Canadian Government had to face one of the gravest questions that has arisen since the war began, as practically the entire world's supply of nickel comes from Ontario and New Caledonia, an island lying about 800 miles northeast of Brisbane on the east coast of Australia. The latter supply is under complete control of the French Government since the island belongs to France. The main source of nickel for the world is the Ontario supply. This is an area of about 100,000 acres at Sudbury, controlled by the International Nickel Company. Nickel is essential to the manufacture of rifles, machine guns, armor plate and the killing end of ammunition bullets. The very nickel which Germany has used in her terrible destruction of life and property has been from the Ontario mines.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS

The sole head of a family, or any male over 18 years old, may homestead a quarter-section of arable Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duration—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity. In certain districts a homesteader to good standing must have a quarter-section alongside his homestead. Price \$10.00 per acre.

Duration—Six months residence in each of three years after having homesteaded; also 90 acres must be cultivated in each of three years, on certain conditions. Five-month period may be obtained as soon as homesteaded, on certain conditions.

The area of cultivation is subject to reduction in case of rough, rocky or stony land. Five acres may be substituted for cultivation under certain conditions.
